TRANSPORT
VICTORIA **PT>**

Authorised by the Department of Transport and Planning, 1 Spring Street, Melbourne

The following information outlines the Passenger Compensation Code, including circumstances in which compensation will be made available to passengers and the process of applying for compensation.

Compensation

Under our agreement with Public Transport Victoria (PTV), if our monthly performance for punctuality or reliability falls below set thresholds, Yarra Trams will provide compensation equal to one daily fare of the travelled fare type to eligible passengers.

Threshold	%
Service Delivery	98.5
Punctuality	82

Yarra Trams publishes performance results online at yarratrams.com.au, once they have been publicly released by the Department of Transport and Planning, typically no later than 10 days after the end of each month. Where results are published later than 10 days after the month, Yarra Trams will extend the date passengers can apply for compensation equal to the number of days the results have been delayed.

A Compensation Notice will be issued online at yarratrams.com.au and ptv.vic.gov.au notifying passengers of their eligibility to claim for compensation.

For information about which passengers are eligible to claim for compensation and the myki *compensation process*, please refer to the table headed *Passenger compensation overview*.

Eligible passengers are able to make one compensation claim per month.

Additional compensation offer

In addition, compensation may be claimed regardless of what type of fare you hold if your service was delayed by more than 30 minutes and:

- you were not advised of the reason for the delay by Yarra Trams when on board a tram service, and/ or
- no alternative transport options were communicated to you by Yarra Trams.

Compensation provided for these reasons will be of the same value or type as the fare you held for the start of that journey.

You may only claim for one of the above occurrences for any one day.

Assessment of compensation claims

All compensation claims will be assessed on merit using the information provided and available data including Automatic Vehicle Monitoring, myki and PTV policies.
